

Numbers That Preach: Understanding Gods Mathematical Lingo

GOD IS SPEAKING

Would it surprise you to discover the same God who created numbers uses them to speak to you? He does, and while there is no power in numbers, there is absolute power in the Word of God.

Join Pastor Troy Brewer as he reveals this "hidden" language and how your Bible, history books, even today's headlines, are filled with God shouting a powerful message of hope and healing. Numbers tell a story – the story of a creator who loved and lost His crowning achievement – man – and will stop at nothing to win him back.

That same creator who designed our planet to measure 24,900 miles around, also calculated the 24-hours around your clock, and predetermined 24 elders around the throne. Unless you know what God is speaking through the number 24, you might miss the message.

Understanding God's mathematical lingo is a skill set all believers with a prophetic "ear to hear" should be tapping into in these last days. Do you have the honor of a King? Are you willing to search out the matter? Learn to hear the Creator's voice through the numbers in your everyday life. Once you tap into this amazing revelation, you will never be the same.
